Useful jQuery Mobile Classes

Global Classes

These classes can be added on any jQuery Mobile widgets (buttons, toolbars, panels, tables, lists, etc ..):

Class	Description
ui-corner-all	Adds rounded corners to the element
ui-shadow	Adds shadow to the element
ui-overlay-shadow	Adds an overlay shadow to the element
ui-mini	Makes the element smaller

Button Classes

In addition to global classes, you can add the following classes to \<a> or \<button>

elements (that are not <input> buttons):

Class	Description
ui-btn	Must be added to <a> elements if you want them to be styled as buttons
ui-btn-inline	Displays the button inline
ui-btn-icon-top	Positions the icon above the button text
ui-btn-icon-right	Positions the icon to the right of the button text
ui-btn-icon-bottom	Positions the icon below the button text
ui-btn-icon-left	Positions the icon to the left of the button text
ui-btn-icon-notext	Displays only the icon
ui-btn-a|b	Specifies the color of the button. "a" is default (gray background with black text), while "b" will change the color to a black background with white text

Icon Classes

All available icon classes for <a> and <button> elements (see Icons Reference for how to use icons on other elements):

Class	Icon Description
ui-icon-action	Action (arrow arcing clockwise out of a box)

Theme Classes

You can use the data-theme attribute as we have seen in class or you can apply a swatch to an entire area with the CSS classes below

Class	Description
ui-bar-(a-z)	Specifies the color for a bar - headers, footers and other bars
ui-body-(a-z)	Specifies the color for a content block - page content panes (deprecated in version 1.4.0), listview items, popups, collapsibles, loader, sliders, and panels
ui-btn-(a-z)	Specifies the color for a button (and icon)
ui-group-theme-(a-z)	Specifies the color for controlgroups, listviews and collapsible sets
ui-overlay-(a-z)	Specifies the background color of the page that the dialog, popup and other page containers appears on top of
ui-page-theme-(a-z)	Specifies the color for pages
